The Commission also reviewed the institutional report and exhibits submitted by United Arab Emirates University prior to the Offsite Review (OSR), the supplemental materials requested by the team after the OSR, and the institution's May 24, 2022 response to the team report. The Commission appreciated the opportunity to discuss the visit with you and your colleagues Wissam Ibrahim, Director, Office of Institutional Effectiveness, and Amr Sweedan, Director, Academic Affairs and ALO. Your comments were very helpful in informing the Commission's deliberations. The date of this action constitutes the effective date of the institution's new status with WSCUC.

3. Schedule the next reaffirmation review with the Offsite Review in fall 2031 and the Accreditation Visit in spring 2032

The Commission commends United Arab Emirates University in particular for the following:

4. Development of critical structures and functions to plan for the future, with prominent examples including the Strategic and Future Department and the development of comprehensive long-range financial models and analytical tools.
5. Rapid development and adoption of effective alternative teaching and learning technologies in response to the pandemic.

The Commission requires the institution to respond to the following issues:

1. Continue to take actions, based on widely recognized best practices, that are designed to improve the effectiveness of the University Council as the institution's governing board. (CFRs 1.5 and 3.9)
2. Affirmatively address the representation of women and Emirati nationals in the faculty as the university works to attract and retain the high-quality faculty needed to support its educational excellence goals and its aspiration to enhance its research profile. (CFRs 1.4, 3.1, and 3.2)
3. Strengthen efforts to improve post-graduation employment rates, which is one of UAEU's criteria for student success. (CFRs 2.6, 2.10, and 2.13)
4. Develop a detailed plan for continued growth of the institution's research profile that addresses areas such as graduate students and post docs, specialized research support personnel, balance between teaching and research, research partnerships, and technology transfer functions. (CFRs 2.8 and 3.2)

In taking this action to reaffirm accreditation, the Commission confirmed that United Arab Emirates University addressed the three Core Commitments and successfully completed the two-stage institutional review process conducted under the 2013 Standards of Accreditation. In keeping with WSCUC values, United Arab Emirates University should strive for ongoing improvement with adherence to all Standards of Accreditation and their associated CFRs to foster a learning environment that continuously strives for educational excellence and operational effectiveness.
