

DEAN'S MESSAGE

Welcome to the College of Medicine and Health Sciences at the United Arab Emirates University, where our dedication to shaping the future of healthcare through education, research, and service is unwavering. As the Dean of the College, I extend a warm invitation to join our vibrant academic community.

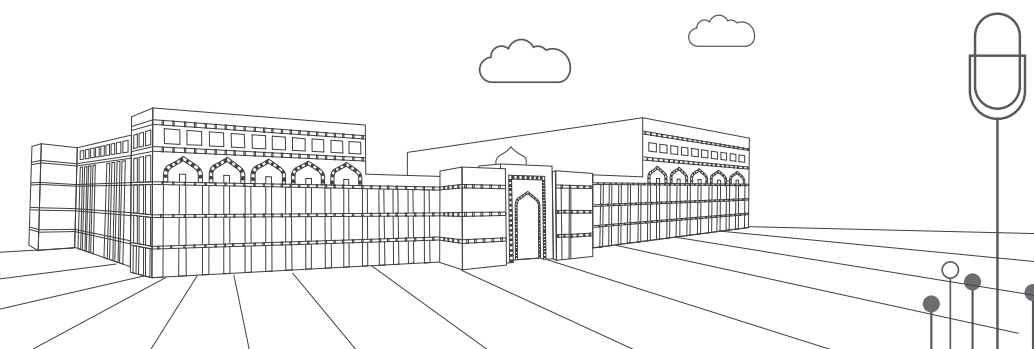

At the College of Medicine and Health Sciences, we offer a diverse array of programs meticulously crafted to prepare students for successful careers in medicine and health sciences. Whether your ambition is to become a physician, pharmacist, speech-language pathologist, dietitian, or nutritionist, or to pursue advanced studies in specialized fields such as Medical/Biomedical/Nutritional Sciences, Public Health, Genetics Counseling, Genomics Medicine, or Clinical Psychology, we provide the resources, support, and opportunities needed for excellence. Our college is located at the Tawam medical campus, adjacent to Tawam hospital, and is in close proximity to the main university campus which offers recreational facilities such as swimming pools, gymnasiums, and tennis courts, among others.

Our standard of teaching and learning is among the highest in the region. You will be part of an elite academic group, learning from outstanding faculty who are global experts and researchers at the forefront of their fields. The College of Medicine and Health Sciences has received numerous prestigious awards and was recently recognized as one of the top 5 Academic Institutions on the United Arab Emirates Health Research Platform. As we navigate the ever-changing healthcare landscape, we remain committed to advancing medical knowledge and improving patient outcomes. We recognize the importance of collaboration, innovation, and leadership, and we strive to instill these values in our students.

I encourage you to seize the many opportunities available at our college. Engage in research, participate in community service initiatives, and seek mentorship from our experienced faculty members. Together, we can work towards a brighter future for healthcare.

I invite you to explore all that our college has to offer and join us in our mission to transform healthcare for the better.

Prof Ahmed Alsuwaidi
Acting Dean

QUICK FACTS

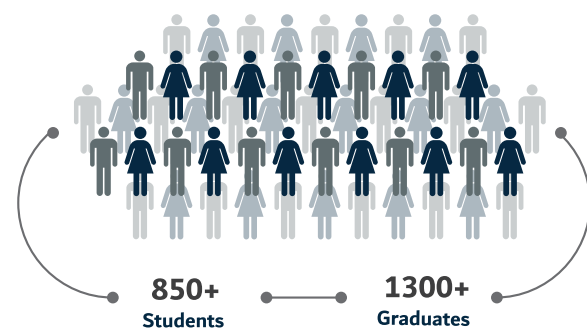

Estd. 1984

Hamdan Award for Best Medical College in the Arab World

**4 Undergraduate Program

3 PhD Programs**

18 Student Clubs

400+ Publications in 2020

150+ National and International Faculty

High quality teaching environment with modern laboratories and equipment.

WHAT PROGRAMS DO WE OFFER?

UNDERGRADUATE PROGRAMS:

- Doctor of Medicine (MD)
- BSc in Dietetics
- BSc in Nutritional Science
- BSc in Speech Language Pathology

GRADUATE PROGRAMS:

- Master of Medical Sciences
- Master of Public Health
- Master of Science in Genomic Medicine
- Master of Genetic Counseling
- Master of Science in Human Nutrition
- Master of Science in Clinical Psychology
- Doctor of Pharmacy

PhD PROGRAMS:

- Doctor of Philosophy in Public Health
- Doctor of Philosophy in Biomedical Sciences
- Doctor of Philosophy in Nutritional Sciences

WHAT CAN I DO WITH MY DEGREE?

Public Health Specialist	Psychiatrist
Surgeon	Gynaecologist
Medical Researcher	Obstetrician
Cardiologist	Ophthalmologist
Clinical Radiologist	Paediatrician
General Practice Doctor	Nutrition Specialist
Hospital Doctor	Dietitian
Pathologist	Speech Language Pathologist
Anesthetist	Clinical Psychologist
Clinical Oncologist	And Many More...
Dermatologist

STUDENT TESTIMONIALS

"The journey of medicine here is significantly enriched with support from faculty, administrators and students that are completely invested in each other's success. The college acknowledges and appreciates excellent academic performances, hence rewarding students with countless opportunities to pursue various training electives, both locally and abroad. I am confident and proud to say that having chosen CMHS as a platform to pursue my medical education was one of the best decisions I have made."

Abdulla Alshemeli,
Doctor of Medicine

"Our College of Medicine and Health Sciences fosters a student-centered culture that is guided by innovative education and advancing knowledge. Besides the great support we get from faculty, our curriculum is greatly reinforced by opportunities to apply our knowledge into simulated patient-interactions and clinical case studies. This certainly allows us to hone our skills, solidify our understanding of medicine, and makes us feel like the experience and learning is tailored to make us the best version of ourselves."

Husain Chaqfa,
Doctor of Medicine

WHY CHOOSE CMHS?

- 1 Diverse career opportunities for graduates**
After graduation, there is a broad range of opportunities to work such as hospitals, research institutes, public health care providers, etc.
- 2 The ability to help people directly and make them happier**
Most healthcare professionals say that there is no greater joy than helping others or being part of a group of scientists discovering a new medicine for a certain disease.
- 3 Opportunities to study abroad**
Students are offered external electives that involve studying abroad where students get to experience another culture.
- 4 Get involved in cutting edge research**
CMHS provides its students with the chance to participate in summer research work. This can be either in the college, with senior research professors, or overseas working in well-known international laboratories.
- 5 Status and respect in society**
Health care professionals are seen as symbol of dignity, responsibility and service to the community.
- 6 Excellence**
UAEU is ranked 1st nationally and 201-250 globally for clinical and health as per THE World University Subject Rankings 2024.
- 7 You will learn from the best**
Our elite team of professors and researchers have graduated from highly reputable international universities.
- 8 State-of-the-art scientific laboratories**
CMHS houses facilities that include imaging unit, analytical and molecular unit, cellular biology facility and an animal vivarium unit. There is also an animal research facility, a dissection laboratory, a medical simulation center, an evaluation and assessment center. The UAEU Genomic Laboratory has been established recently as a center of excellence for research to ultimately reduce the impact of genetic disease on the UAE community. This new lab contains state of the art equipment and technologies for studying Genomics, Metabolomics and Bioinformatics.
- 9 Ample opportunities to get involved**
CMHS offers a number of student clubs, organizes many field trips and has a wealth of extra-curricular activities to enrich your university experience.
